Customer Service

"The Customer is Always First." That is our motto and we stand by it 24/7. We have built a reputation in our industry based upon on-time service and defect-free performance. Our customer account managers work closely to forecast, schedule, and run customer order releases in a lean, efficient manner via all types of verbal, written and electronic data interchange. Many of APPC's custom operations are direct solutions to customer requirements managed in seamless continuity of their orders. And, we manage our external supply chain to ensure optimum availability, reduced lead times and predictable costs.
